intro
WHO I AM

Nice to meet you, I'm Matteo Curiél, known as Mago Piti, born in Trieste. Since childhood, magic has been my greatest passion. To me, it is a bridge that allows us to move from the visible world to the invisible one, leaving an indelible memory behind.

Think about it: if we cannot find any plausible explanation for what we are witnessing, then it truly exists.

I specialize in mentalism and close-up magic, meaning performances at very close range with people. I love performing using everyday objects such as a deck of cards, coins, a rubber band, a match, or any other common objects capable of creating an extraordinary emotional impact for audiences of all ages.

I am accustomed to working in luxury and exclusive settings, alongside VIPs and high-profile individuals, always guaranteeing the utmost discretion and confidentiality.
